This set of 4 tweezers is your secret weapon for precision work. Whether you're working on electronics, model building, jewelry making, or other delicate tasks, these tweezers allow you to handle small parts with ease. The set includes four different tweezers, including bent nose, flat spade, self-locking, and standard tweezers, that meet all your needs. They are built to last and provide the precision and control you need for even the most demanding tasks. Add this set to your tool collection today and elevate your precision work to the next level.
