

# Force Platform Handle Set

PS-2548

Additional Equipment Required	Part Number
Force Platform (1D)	PS-2141

- Use the supplied thumb screws and washers to firmly attach the handles as shown in the following illustration. The metal spacers supplied with the thumb screws are used when attaching handles to the bottom of the Force Platform and should not be used when installing handles on the top.

## Introduction

The PASCO model PS-2548 Force Platform Handle Set is designed as an accessory to the PASCO Force Platform. The handles may be attached to the top of the Force Platform, the bottom of the Force Platform, or both.

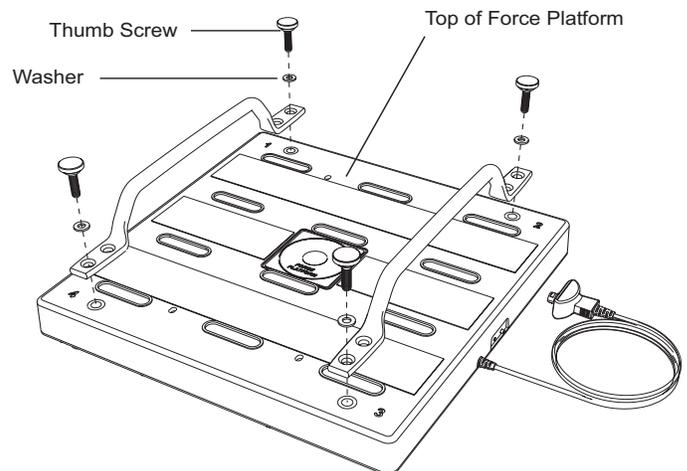

## Experiments

Please refer to the experiment guide that comes with the applicable PASCO equipment for specific experiments.

## Installation procedure

### Installation on the top of the Force Platform

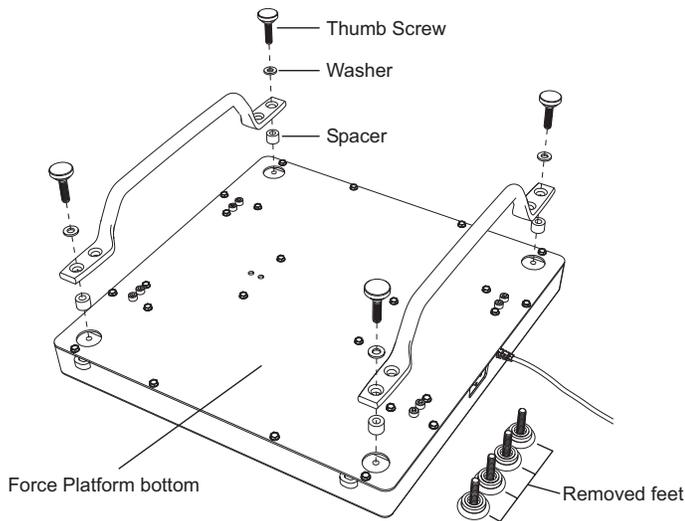

- The corners of the Force Platform are identified by numbers molded into the top of the case. Place one handle spanning corners 1-4. Place the other handle spanning corners 2-3.

Handle installation on top of Force Platform

### Installation on the bottom of the Force Platform

1. With the bottom of the Force Platform facing up, unscrew the four feet and set them aside.
2. Place a spacer in the recess at each attachment point.
3. Use the thumb screws with washers to firmly attach the handles to the Force Platform as shown in the following illustration.

**Handle installation on bottom of Force Platform**
